REPORT

Treasury Department

TO: Mayor and Members of Council

FROM: Donna Condon, Treasurer

DATE: June 22, 2020

REPORT: TR-25/20

FILE NO. Release of Security

SUBJECT: Deluxe Stair and Railing – Release of Security

BACKGROUND:

The Township of Uxbridge (the “Township”) may require securities (letter of credit, certified cheque or cash deposit) to be submitted to secure financial and/or performance obligations through various development approval processes and agreements between the Township and an outside party seeking approval from the Township. When the financial and /or performance obligations have been met or partially met, pursuant to the satisfaction of the Township, the Township will reduce or return the security, upon approval from Council or Committee of the Township.

DISCUSSION:

The Township’s Engineer has recommended that the cash deposit held of \$40,000 for this site be released based on the work completed, leaving no balance held by the Township. A current statutory declaration has been provided and the account is current.

RECOMMENDATION

THAT Report TR-25/20 be received for information;

AND THAT it is recommended that Council approve the release of the full \$40,000 cash deposit as it is no longer required, as security.

Respectfully Submitted by:

Donna Condon, CPA, CA

REPORT

Clerk's Department

TO: Mayor and Members of Council

FROM: Debbie Leroux, Director of Legislative Services/Clerk

DATE: June 22, 2020

REPORT: CL-15/20 **FILE NO.**

SUBJECT: Approval of Patios at Local Businesses

BACKGROUND:

As the Covid 19 reopening process transitions into Phase 2, this has brought with it the provisions to allow local restaurants/pub/bars to operate by way of serving the public on patios effective Friday, June 19, 2020. This allows patrons to stay outside, maintain physical distancing in accordance with Provincial Requirement but still enjoy the opportunity and atmosphere of dining out. Restaurants have not yet been permitted by provincial legislation to operate indoor dining.

To date, there have been a number of local businesses that have requested permission to either install a patio if they have not previously had one or they wish to expand an existing one in order to accommodate additional patrons. This has been a mix of patios on private property and Regional property ie Brock Street.

Following consultation with the Region, if the patio is proposed for their property, they stated the following: "we are open to the idea of permitting patios on Regional Roads as long as there is no impact to travelled lanes – i.e. if the Township and businesses can agree on exchanging the space currently reserved for on-street parking with patio space we are open to the idea but will need to review each proposal on a site specific basis. We would like the request to come to the Region from the Township – not directly from the business owner."

If the patio proposed is on a Regional right of way, the process will be established through Road Occupancy Permits instead of Encroachment Permits. They have waived the fee but the owner will still require \$5 million insurance.

The Township will be undertaking a process that will see an application from the Business/property owner that will outline information regarding proposed size, location etc to assist staff in determining if the proposed patio is feasible.

Approvals will consist of inspections from the Building Department/Fire Department to ensure compliance with all local by-laws/Regional by-laws and requirements/Provincial Regulations.

As Council recesses for the summer months, it is necessary that staff be given authority to carry out the required approvals in order that requests are not held up for significant periods of time. The ability for local businesses to move as quickly as possible is extremely important to them as they look for ways to keep their business operational during these difficult times.

RECOMMENDATION

THAT Report CL-15/20 be received for information;

AND THAT Council delegate the authority to staff to undertake approvals for patios to ensure that all applicable legislation at the Township level, Regional level and Provincial level are achieved and approvals are issued in a timely manner.
