2024 Survey says

Herrema was the winner!

What we are looking for today:

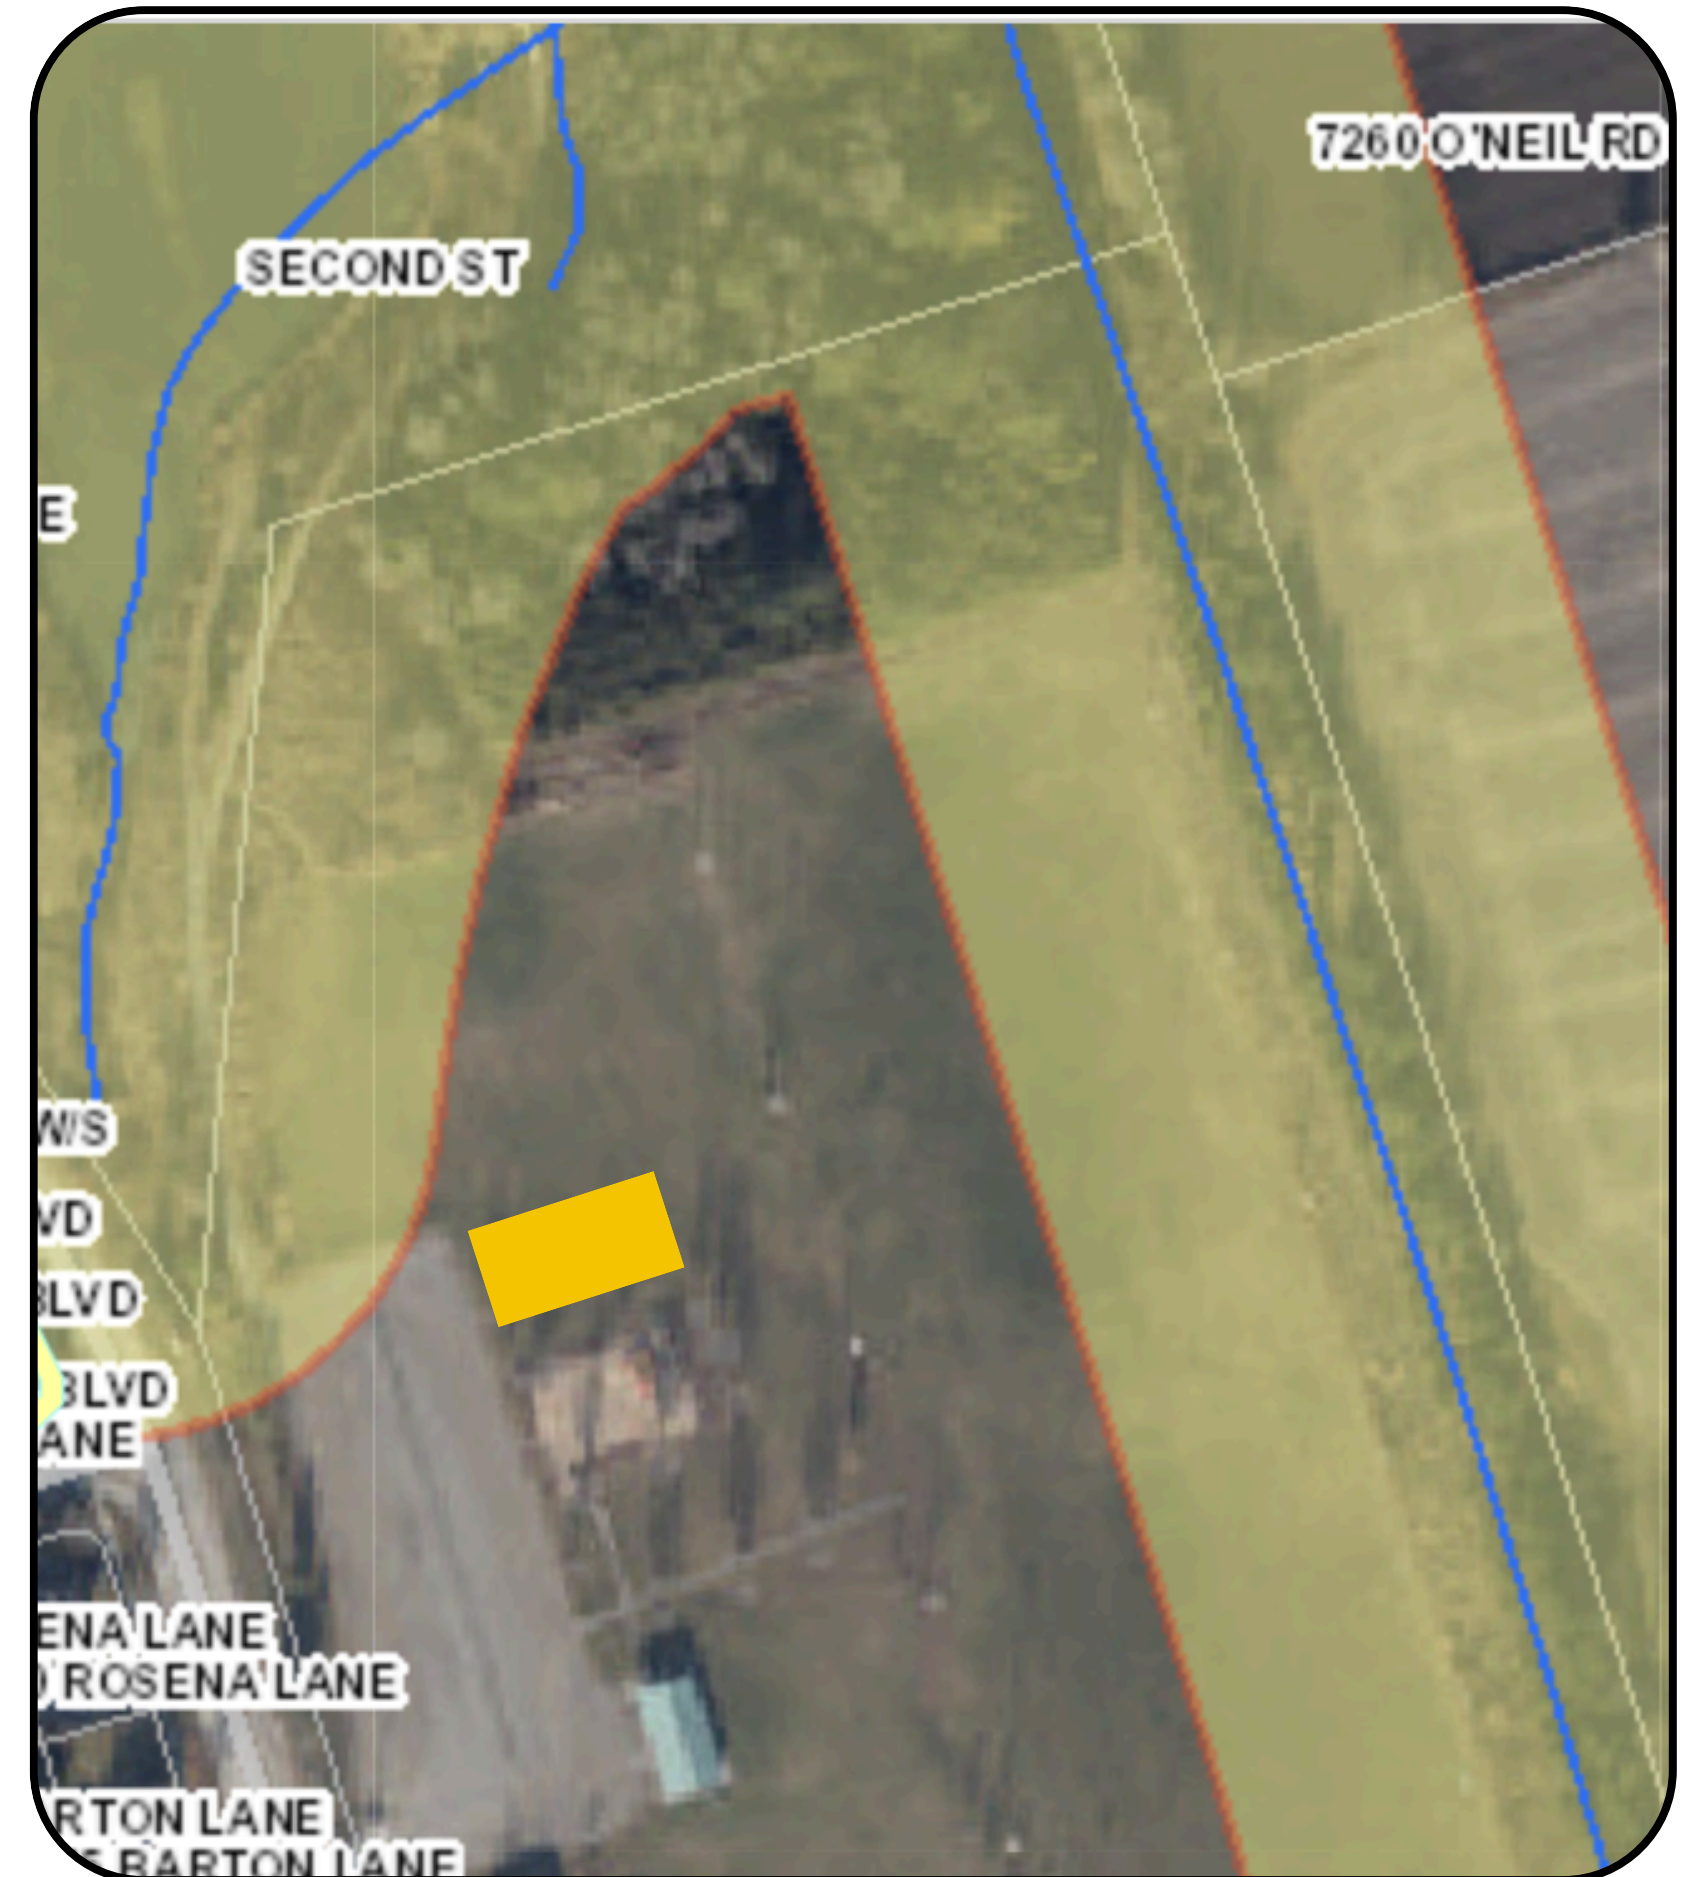

- Permission to **use Township land** for garden at Herrema Fields
- Permission to **access water** and delivery materials*
 - Waterline
 - Hand pump for site

***All other materials will be by donation and fundraising efforts**

Environmental Assessment:

- The proposed location of the Garden currently designated as Park and Open Space on "Schedule A - Land Use" of the Township of Uxbridge Official Plan 2024 Office Consolidation
- The proposed footprint is located > 30m from fish habitat, outside the floodplain and outside the LSRCA regulated area

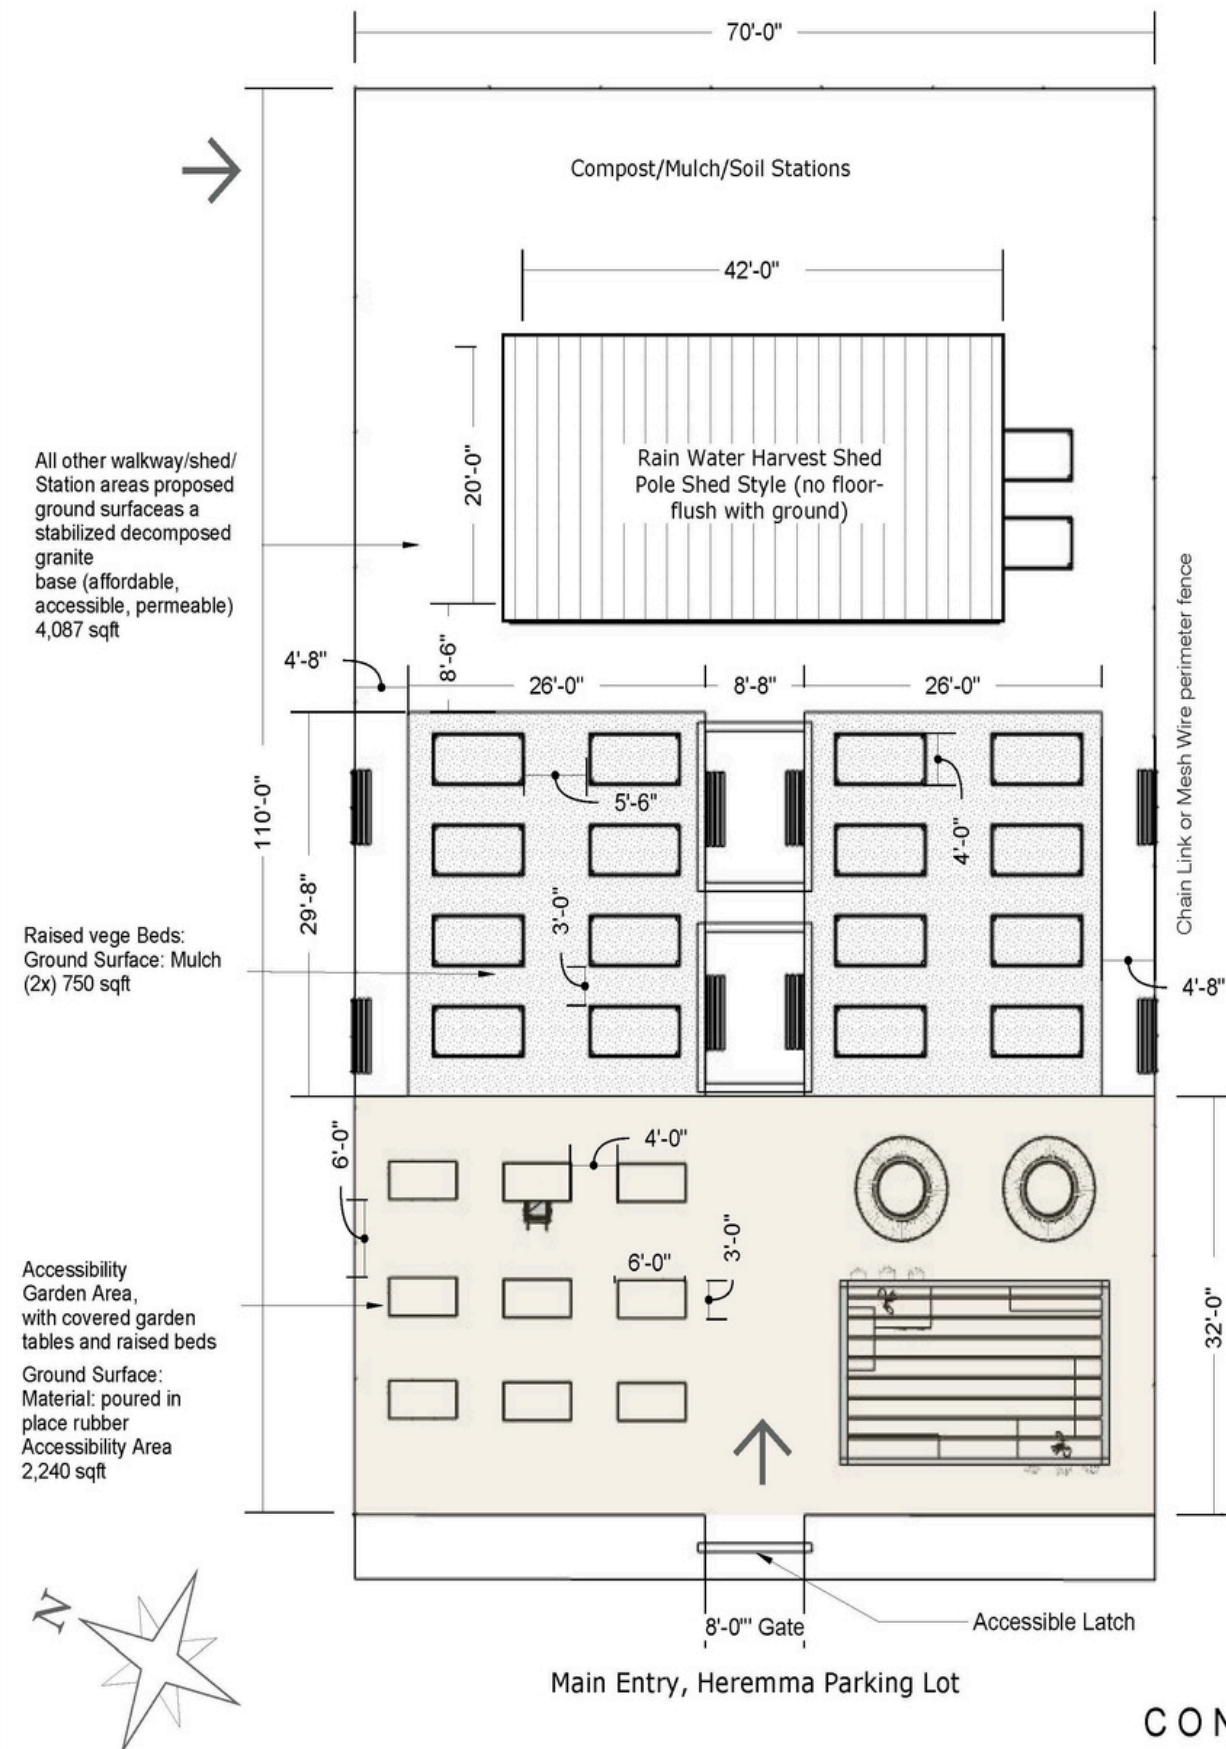

General Accessibility Principles

- 01 Smooth, stable paths
- 02 Clear signage
- 03 Shade & seating
- 04 Accessible water source

**Township
Accessibility
Committee
recommendations
have been
integrated**

This plan is strictly conceptual. Property lines are based off onsite dimensions or survey. Retaining may need to be adjusted +/- on construction and layout days. All 3rd party contractors are responsible for their own permits, locales, and due diligence. Pool and fence locations need to conform to approved permit. Built structures may need to be confirmed and conform to specific requirements as per building department for each individual address.

All 3rd party contractors are responsible for their own permits, locates, and due diligence. Pool and fence locations need to conform to approved plan.

Fencing Options

Option 1: Chain Link

Durable and affordable, chain link is a popular choice for perimeter fencing, especially when deterring animals or larger pests

Option 2: Wire Mesh

Excellent for fine-mesh protection against smaller pests like rabbits and rodents, especially when combined with buried fencing.

Accessible Park Surfacing

Option 1:

Stabilized, decomposed Granite base
(accessible, permeable)

Option 2:

Rubber Surfacing
(similar to Uxbridge's
Elgin Accessibility Park)

Option 3: Pavement
